

2003 ADARA Conference

Integration of Disciplines: All Roads Lead to Excellence

May 27 - 31, 2003

Sheraton Meadowlands Hotel
East Rutherford, N.J.

A multi-disciplinary approach: Sharing what we know to get where we want to go. The conference will focus on increasing our understanding of approaches used by allied fields related to rehabilitation, mental health, psychology, counseling, substance abuse, post-secondary education, program administration, interpreting, and many others including parents and laypersons who have an interest in the Deaf, Hard of Hearing, Late Deafened, and Deaf-Blind Communities.

The NJ Chapter is thrilled to be your hosts. Grab this opportunity to see what our region has to offer! Experience learning and laughter right in Lady Liberty's backyard. Picture yourself chatting with colleagues as you cruise around Ellis Island. Network as you walk down Broadway or stroll through the Museum of Modern Art. Shop at our world famous Secaucus Outlets. Just moments away from Liberty Science Center. Add time to your trip and enjoy the getaway you deserve!
