MINICOM II gives you the same reliable performance at a new low price. It is light weight and completely portable. It has a full-size keyboard, a 20-character blue green display, AC adapter, built-in batteries, and uses the latest in microcircuit technology. MINICOM II costs only \$159. One-year warranty.

The MINICOM II carrying case has been designed for convenience.

The optional vinyl carrying case zips open completely so you can use your MINICOM II while it's still inside. And the case includes a compartment for the AC adapter. \$14.95 cost only.
